

Today's Atlantis Underwater Times was brought to you by the Jellyfish Reporters: Erik Bahnson, Emily Ewan, Annaliese Parra, Markie Rodriguez, Ross Harps, and Editor-in-Chief Sally Gibson.

## Aquatic Arts

By Ross Harps

Today's Craft: 'I Care About You' cards with foam food coloring.

### Interview with Zack Hoatson:

How do you like your card?

- I like my card.

Who did you draw your card for?

- My mom and dad.

What did you draw cards of?

- Thunder and lightning, me and a monster

throwing a rock at me.

## Music – with Pastor Sharon by Emily Ewan

Today, the songs were:

- Dare to Care
- Blessed Be Your Name
- I Depend on You
- Operation Overboard
- Dive

## Today's Ocean Insight:

**Dare to Care!**

## Interview With DC

by Annaliese Parra and  
Markie Rodriguez

Hi Divers! Today we interview Diver Chief (DC) Amy. She has something to say about what she thinks about V.B.S.

**A+M:** DC, what is your favorite part of Vacation Bible School?

**DC:** My favorite part of VBS is singing songs together in the sanctuary as we dive deep.

**A+M:** What do you like to do with Ocho?

**DC:** I enjoy diving with Ocho to see colorful coral and blue whales.

**A+M:** What is your favorite part of knowing Ocho?

**DC:** He has a wonderful spirit, lots of lessons to teach all the divers, and he is cute!

**A+M:** What is your favorite part of the very beginning of VBS?

**DC:** When I see the kids come in all ready to go. Hope you enjoy your ocean adventure, Divers!!

## Scuba Snacks!

By Ross Harps

Today we had:

- Ocean Cups with Ocho on top
- Red tide
- Birthday cake for Dillon

The ocean cups were blueberry Jello and Swedish Fish with whipped cream waves and a gummy octopus on top. The red tide was fruit punch, and the birthday cake is courtesy of Dillon Parra, who turned 8 today!

## EXPLORATION STATION

***by Erik Bahnson***

Resident mad scientists Peter and Mike are at it again, this time wielding the power of phosphorescence! Although the element phosphorous can be invisible to the naked eye, a simple scanning with a black light will make the unseeable pop into vision with a surprising array of colors. You'll be surprised where and how you can find phosphorous – the lab crew handed me a handheld black light for some personal investigation, and I found tonic water glowing green, yellow highlighter fluid coming up purple (go figure that one), and an otherwise invisible white crayon message become as readable as a blue pen. And the message? Well, today's Ocean Insight, of course; Dare to Care!

**Mike directs his captive divers.**

### The Atlantis Underwater Times Reporters

# Story Telling

**by Annaliese Parra and  
Markie Rodriguez**

Hi Divers! Today we interviewed 3 divers, Ms. Carole Jones, Pastor Ron, and the sea star Amelie.

Today's story was about Naamen and how he was cured of leprocy. Naamen (Pastor Ron) was asked what was your favorite part of acting out the story? He answered, "Actually, the game that we play at the end is my favorite." We asked him what was your favorite part of Naamen's story? He said, "How the servant girl was responsible for curing Naamen." We also interviewed Carole Jones. We asked her what was your favorite part of the memory verse that you talked about? She answered, "What it teaches you." And last, but not least, we interviewed the sea star Amalie. We asked her what she liked most about Carole's verse. "That you could just love your neighbors," she answered.

Enjoy your Story Telling discoveries, Divers!!
