

Today's Atlantic Underwater Times was brought to you by the Jellyfish Reporters: Erik Bahnson, Emily Ewan, Annaliese Parra, Markie Rodriguez, Ross Harps, and Editor-in-Chief Deb Davidson.

Interview with Ocho!

by Annaliese Parra and Markie Rodriguez

Q: What is your favorite part of living in the sea?

A: All the fish!

Q: What is your favorite part of being at VBS?

A: Definitely the kids!

Q: Do you have any siblings?

A: Not that I know of... we all hatched and went our separate ways.

Q: Why do you wear the sea mask?

A: It helps me aerate.

Q: What is your favorite food?

A: Not tin cans for sure... maybe mackerel.

Q: What is your favorite number?

A: My favorite number is twelve.

That is the inside edition on Ocho! Enjoy, divers!

Today's Ocean Insight:

Dare to Follow!

Story Time

by Annaliese Parra and Markie Rodriguez

We asked questions about today's story.

Q: What do you like about today's story?

Pastor Ron: Peter's faith.

Q: What do you admire about Peter?

Pastor Ron: How he was just like all of us, yet Jesus chose him.

Q: What do you like about today's verse?

Carole Jones: The important words to rely on and to follow Jesus.

Q: What was your favorite part of the story?

Dillon Parra: When Jesus walked on water.

Q: What did you like about Peter?

Dillon Parra: He followed Jesus.

Oyster Pearl Cookies for Snack! *by Ross Harps*

Today Mrs. Smith and Mrs. Pistilli served us oyster pearl cookies and purple sea water today, and told us a little bit about themselves:

Q: Do you like to cook?

Both: Oh Yes!

Q: What do you like to cook?

Mrs. Smith: Yorkshire pudding, Toad in the Hole, Bangers and Mash, Fish and Chips and more.

Mrs. Pistilli: Spaghetti.

Q: What is your favorite food?

Mrs. Smith: Roast beef and Yorkshire pudding.

Mrs. Pistilli: Chocolate chip cookies.

Q: What's your favorite kind of food?

Mrs. Smith: English.

Mrs. Pistilli: Italian.

TODAY'S COLOR WAS PURPLE

THURSDAY'S COLOR IS GREEN!

EXPLORATION STATION

BY ERIK BAHNSON

In today's experiment, "Penny Drop," pennies were slid into an already-full cup of water to see just how many could fit. Now, we all know what happens when you hop into a full bathtub, but much lighter objects with much less force behind them can prevent imminent spillover. This is because water absorbs force, so as a sinking object slows down, its surrounding liquid speeds up, causing water to splash out when you drop objects in water. But if you gently slide the pennies in, how many more can you fit in a cup before the water spills out? Ten, perhaps? Twenty, even? In an already full cup of water, you can fit an average of – and get this – FIFTY pennies! But don't take my word for it; try it for yourself!

Aquatic Art *by Emily Ewan*

Hi Divers! Today in art we made little aquariums to go with today's fish story. Jesus' followers went out to go get fish, and indeed, they caught many!

Aquarium Fish

Hey, Divers! Please remember to bring school supplies or money to help less fortunate children in Yucaipa have what they need to go back to school in the Fall!
